

Helping families and NICU support groups not only grow but blossom!

PremieCare News

Read Online

Family of Premie Featured

Our newest partner, CarePages, will be featured on the NBC-5 news in Chicago tomorrow. The story is about Sheri, a new mother of a premature baby, who uses CarePages to keep friends and family updated about her daughter's progress and therapies.

Sheri's daughter Sydney was born a surviving twin at 28 weeks and has spent several months in the NICU. Sheri's CarePage allowed her to share photos and news about Sydney without repeated telephone calls or time spent away from her daughter in the NICU.

- The segment airs at 5 p.m. Wednesday, January 31 on NBC-5.
- If you don't live in the NBC-5 viewing area, you can still visit [NBC-5](#) after the piece airs to watch!
- As part of the television segment, viewers will be encouraged to make a [donation to MOST](#) (PremieCare's parent organization) as a way to help support all families of premature babies.
- You can also read [Sheri's story](#) on the CarePages website.

PremieCare, MOST & CarePages

PremieCare and MOST will soon be working with CarePages to help families of premature infants and families with or expecting multiples who are interested in this service setup their own CarePage for online community of support.

Check the [PremieCare](#) and [MOST](#) websites for more details coming soon.
